New Chrysler Overhaul Kits

TransTec #2024 & #2427

A727 1962-70

Back by popular demand, we have resumed production of overhaul kits for the Chrysler A727 1962-70. These kits are offered in both cork/rubber and Duraprene pan gasket versions. These kits include genuine NOK brand domestic metal clad seals, an all-metal sealing ring kit, and valve body and governor screens.

TransTec #2024 with cork & rubber pan gasket, #DP2024 with Duraprene pan gasket.

A904, A998, A999, 30RH, 31RH, 32RH

Jeep Cherokee, Wrangler, and Dodge Van 1999-Up with 3-Speed RWD

As a result of the numerous changes and additions to the A904 in 1999, we have created a late-model-only TransTec overhaul kit for this 3-speed family of transmissions for 1999-up.

This high-quality kit includes these special features:

- Wide base direct clutch inner seal
- Fill tube-to-case boot seal
- Seal plated stator rings
- 4 x 4 adaptor housing seal
- Valve body and governor screens
- Inner lip style direct clutch outer seal
- Viton[®] reverse servo lip seal
- Teflon[®] accumulator / servo seals
- Genuine NOK brand metal clad seals

TransTec #2427 with cork & rubber pan gasket, #DP2427 with Duraprene pan gasket.

Kits are in stock and ready for immediate shipment.

Viton[®] is a registered trademark of Dupont Dow Elastomers LLC
Teflon[®] is a registered trademark of E.I. du Pont de Nemours and Company
