

NEW PRODUCT ANNOUNCEMENT

NPA2003-6, April 2003

Sonnax Low/Reverse Repair Kit Now Included in TransTec Kits for Chrysler A604 & A606

We are pleased to announce the availability of **optional** overhaul kits for the Chrysler 41TE (A604) 1989-up and the 42LE (A606) 1993-up. We have partnered with Sonnax Industries to offer their complete low & reverse repair kit, with instructions, in place of the low/reverse retainer and low/reverse retainer-to-case gasket in these kits.

The overhaul kits listed below are the new kits with the Sonnax kit included. *These kits are optional, and all the existing kits for these applications are still available.* As with the existing kits, the new ones are available in versions with Duraprene pan and cover gaskets, or without pan gaskets.

TransTec Number	Application	Years	Pan Gasket
2432	41TE (A604)	1989-up	No pan gasket
DP2432	41TE (A604)	1989-up	Duraprene pan & cover gaskets
2433	42LE (A606)	1993-up	No pan gasket
DP2433	42LE (A606)	1993-up	Duraprene pan & cover gaskets

These kits are in stock and available for immediate delivery!
