

NEW PRODUCT ANNOUNCEMENT

NPA2004-4, March 2004

Mitsubishi F5A42 1996-Up TransTec Overhaul Kit #DP2452

We are pleased to announce the immediate availability of TransTec overhaul kit #DP2452 for the 1996-up Mitsubishi F5A42.

This unit is a front wheel drive, 5-speed automatic. It resembles the 4-speed F4A42, with the most notable difference being the addition of a direct clutch assembly, a reducing brake assembly, and a direct planet carrier assembly.

Although the F5A42 has not been used in the States to date, it has been used overseas since 1996.

TransTec kit #DP2452 is in stock and ready for immediate delivery!

TransTec Overhaul Kits contain genuine NOK seals, O-rings, D-rings, and molded seals, as well as premium paper and cork products.
