

# **Transtech** **Bulletin**

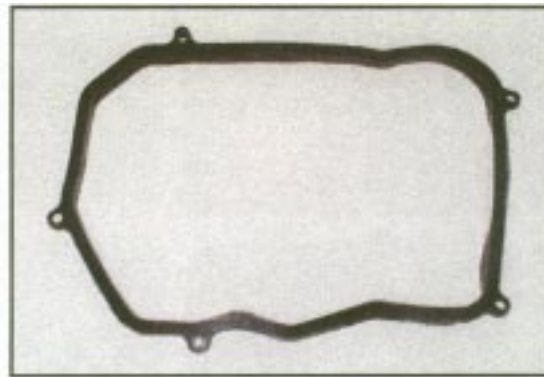

**Application: Volkswagen/Audi**

**Subject: 097/01N Pan Gasket 1995-Up with Lock-up**

In 1995 when Volkswagen/Audi revised the product designation of the 097 to 01N, they also changed the shape of the molded pan gasket slightly. As little as the change is, there is no interchange between the 097 and 01N parts.

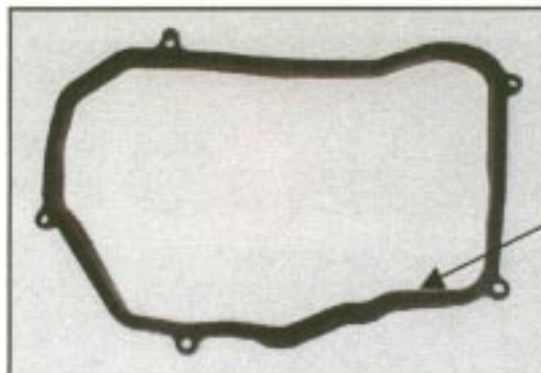

TransTec's part number is #33002, OEM #01N-321-370. Please see the illustration below.
