

TransTechnical Bulletin

Application: Chrysler A500/518
Subject: Governor Feed Screen

As a convenience to rebuilders, TransTec has added the governor feed screen to all Chrysler A500 and A518 kits. This screen should be replaced on overhauls to reduce the chance of foreign material entering the governor and causing shifting problems.

TransTec #87120, OEM #3743519, is included in all kits with a date code of D01 and later.
