

Bulletin

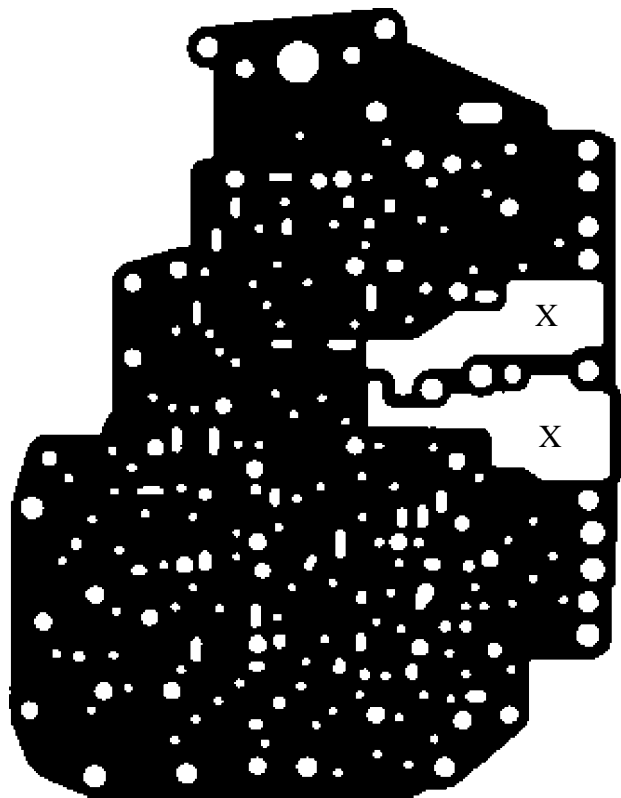

Application: Hyundai Motors: A4BF2
Subject: Valve Body Gaskets

Hyundai Motors released an updated valve body gasket for all A4BF2 units built after 2/11/99. The new gasket has material removed from the suction and line pressure ports to reduce gasket blow-out concerns.

All TransTec Hyundai kits are being updated with the new gasket as stock becomes available. The previous gasket can be modified to the current level until TransTec #12478 is available.

Prev. design, TransTec #12551 (OEM #46283-28000). Production dates 9/15/98 – 2/11/99.

New design, TransTec #12478 (OEM #46283-28001). Production dates 2/11/99 – UP.
