

## Bulletin

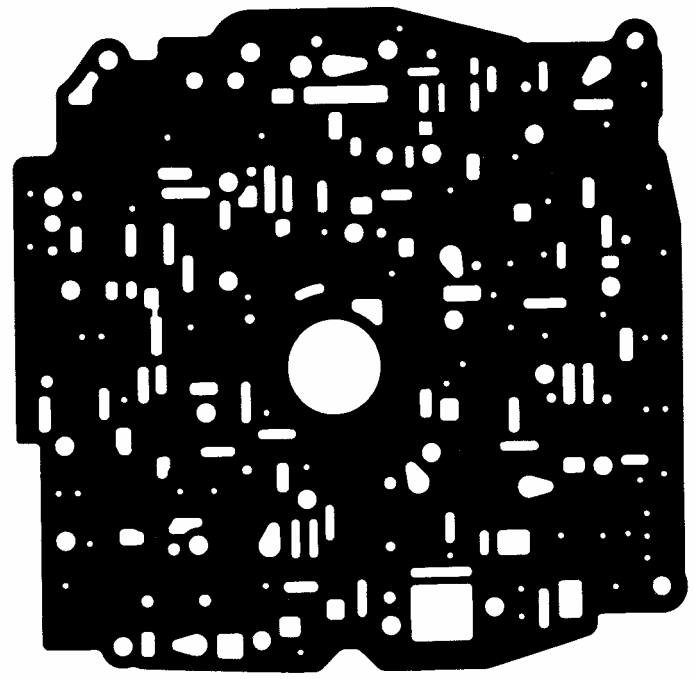

**Application:** General Motors 4T40E / 4T45E 2004-Up  
**Subject:** Valve Body Gasket Revision

There has been a revision in the valve body gaskets of the 4T40E/4T45E for model year 2004. Due to major changes in the gaskets and separator plate, there is no possibility for a retrofit.

The new gaskets, TransTec #36173 (lower) and #36174 (upper), will service only 2004-up models of this unit. A white stripe has been added to the late model gaskets for easy identification. The OEM numbers are stamped into each gasket as well.

LOWER, WITH TAB  
TRANSTEC #36173  
(OEM #24216017)

UPPER, NO TAB  
TRANSTEC #36174  
(OEM #24216019)
