

TransTechnical Bulletin

TB14 7/99

Application: 4T80E
Subject: Transfer Plates

The high amount of phone calls over the last several years indicates that there is a lot of confusion over the transfer plates for the 4T80E. Common questions like,

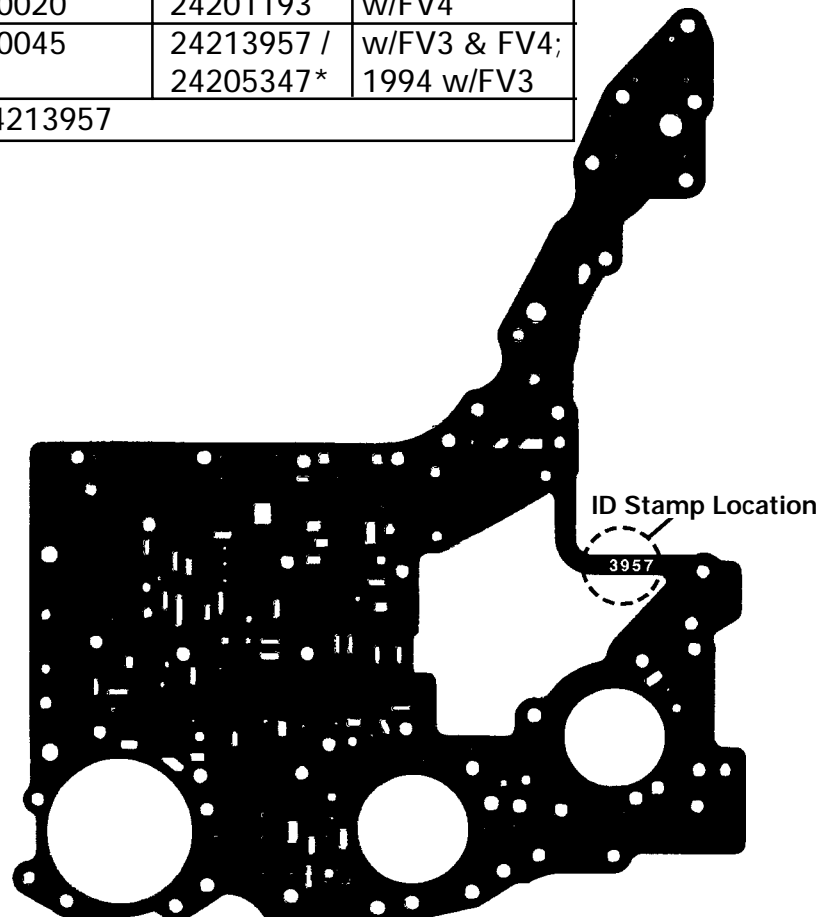

- “What identification stamp is for what year and model?”
- “This plate has no identification stamp. What does it fit?”
- “Are the holes different in this plate?”

The following table will hopefully help clear up confusion over these three plates, which are all included in TransTec overhaul kit #2289.

ID Stamp	Model Year	TransTec #	OE #	Comments
None	1993	10017	8683184	w/FV3 & FV4
1193	1994	10020	24201193	w/FV4
3957 / 5347*	1995-Up	10045	24213957 / 24205347*	w/FV3 & FV4; 1994 w/FV3

* 24205347 was replaced by 24213957
