

TransTechnical Bulletin

TB18 7/99

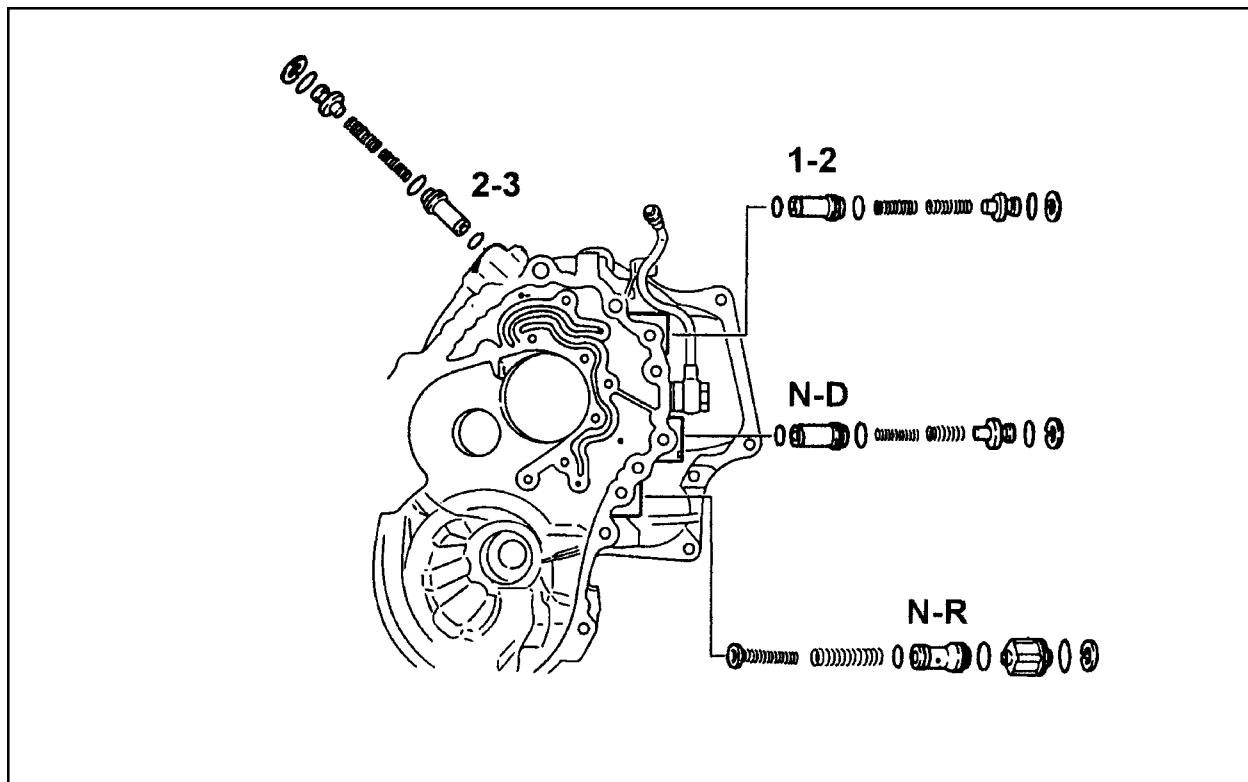

Application: Mazda F4A-EL

Subject: Accumulator O-ring and D-ring Changes

We will now be offering a more durable, Viton material O-ring and D-rings for the F4A-EL accumulator pistons.

TransTec P/N	Type	Position
17810	O-ring	N-D Accumulator
26535	D-ring, large	1-2, 2-3, N-D, and N-R Accumulators
26525	D-ring, small	1-2, 2-3, and N-D Accumulators

All TransTec overhaul kits with date code **G99** and later will contain the new O-ring and D-rings in their appropriate sub-packs.
