FORD	MUSTANG	ALL	LH	NORTH AMERICA MEXICO EUROPE	2011-2017	80R035

The original equipment plastic pinion cap has been known to become brittle over time and can become damaged during the rebuild process. If the cap does sustain damage you could be faced with a stalled or even halted rebuild, costing your shop valuable time and resources. As your full solutions provider, Freudenberg-NOK has engineered an aftermarket replacement pinion cap that matches the OE version in both materials and quality. This cap can be used in conjunction with the above listed TransTec seal kits to complete a full rebuild.

B61028 is in stock and ready for immediate shipment
